Professional Summary

MERN Stack Developer with hands-on experience designing and building full-stack, responsive web applications using React, Node.js, Express.js, and MongoDB. Skilled in building RESTful APIs, JWT-based authentication, and real-time features, with proven ability to integrate third-party SDKs (Stream Chat/Video, Google Gemini AI) into production-ready applications. Comfortable using AI coding agents (GitHub Copilot, Claude) to accelerate development and improve code quality. Strong foundation in Data Structures & Algorithms (Java) with 150+ problems solved on LeetCode; experienced with Git version control and cloud deployment (Vercel, Render, MongoDB Atlas).

Education

Guru Nanak Khalsa College, Yamunanagar

2024 – 2027 (Expected)

Bachelor of Computer Applications (BCA) – Affiliated to Kurukshetra University | CGPA: 8.2/10

Govt. Model Sr. Sec. School, Camp, Yamunanagar

12th Standard – CBSE

New Rama Krishna Public School

10th Standard – HBSE

Internship Experience

Unified Mentor

Nov 2024 – Dec 2024

Full Stack Web Development Intern

- Selected and built two of 15+ available projects – a responsive portfolio website (minor) and a real-time chat application (major)
- Developed and deployed a fully responsive portfolio site with hero, education, projects, and contact sections on GitHub Pages
- Built a foundational chat frontend (signup, room-entry, chat pages) and explored Node.js/Express/Socket.io backend integration; deployed on Vercel
- Maintained consistent daily GitHub commits for 30 consecutive days, reinforcing coding discipline

Projects

HaveaTalk – Real-Time Chat & Video Calling Application | [GitHub](#) | [Live](#)

- Architected and built a full-stack real-time platform (React, Node.js, Express, MongoDB) with 7 core features: authentication, chat, video/audio calls, screen sharing, AI chatbot, friends system, and notifications
- Implemented JWT authentication with bcrypt password hashing to secure chat, call, and profile-management routes
- Integrated Stream Chat and Video SDKs for real-time messaging, video calling, and screen sharing, avoiding custom real-time infrastructure
- Built an AI chatbot using the Google Gemini API to provide in-app conversational assistance
- Designed a friends system (send, accept, reject, and remove requests) paired with real-time in-app notifications
- Developed a responsive frontend with React, Vite, Tailwind CSS, GSAP, TanStack Query, and Axios
- Shipped the core product in 25+ days across ~136 Git commits, totaling ~5,000–7,000 lines of code
- Resolved integration challenges across multiple third-party SDKs, cross-service authentication, and production deployment debugging

Technical Skills

Languages: JavaScript, Java (DSA & OOPs) | **Frontend:** React.js, Tailwind CSS, GSAP, React Router, TanStack Query, Axios

Backend: Node.js, Express.js | **Database:** MongoDB, Mongoose, MySQL | **Cloud:** MongoDB Atlas

Tools & Platforms: Git, GitHub, Postman, VS Code | **Deployment:** Vercel, Render, Netlify, Railway

Core Competencies: JWT Authentication, RESTful API Design, Real-Time Communication (Socket.io / Stream), Responsive Web Design, API Integration, AI-Assisted Development (GitHub Copilot, Claude), Prompt Engineering

Professional Skills: Problem Solving, Analytical Thinking, Fast Learner, Self-Learning, Adaptability, Attention to Detail

DSA / Problem Solving

- Solved 150+ problems on LeetCode
- Core topics: Arrays, Strings, Linked List, Trees, Stack, Binary Search, Heap & Priority Queue
- Practiced on LeetCode and NeetCode

Certifications & Achievements

- LeetCode 100 Days Badge (2026) & 50 Days Badge (2026) – consistent problem-solving streak
- HTML, CSS & JavaScript Certifications – Great Learning
- Cyber Security Workshop Certificate – Guru Nanak Khalsa College
- MERN Stack Workshop – College exposure program
- Programming in Python with AI Training – Internshala
- GNK-JAI Scholarship Award 2026 (Rs. 6,700) – recognized for outstanding academic performance, GNK Group of Institutions
- [View all certificates](#)
